PROFESSIONAL SUMMURY

I'm self-taught software developer specializing in cross-platform mobile applications and responsive web development. I enjoy solving problems through clean, efficient code and constantly learning new technologies to improve my skill set. I have hands-on experience with building responsive mobile apps, managing state, and integrating APIs. Currently expanding backend skills with Node.js to build full-stack solutions. I'm always eager to take on new challenges and work in collaborative environments where I can grow and contribute.
